

全集成自动化，创新实现生产率

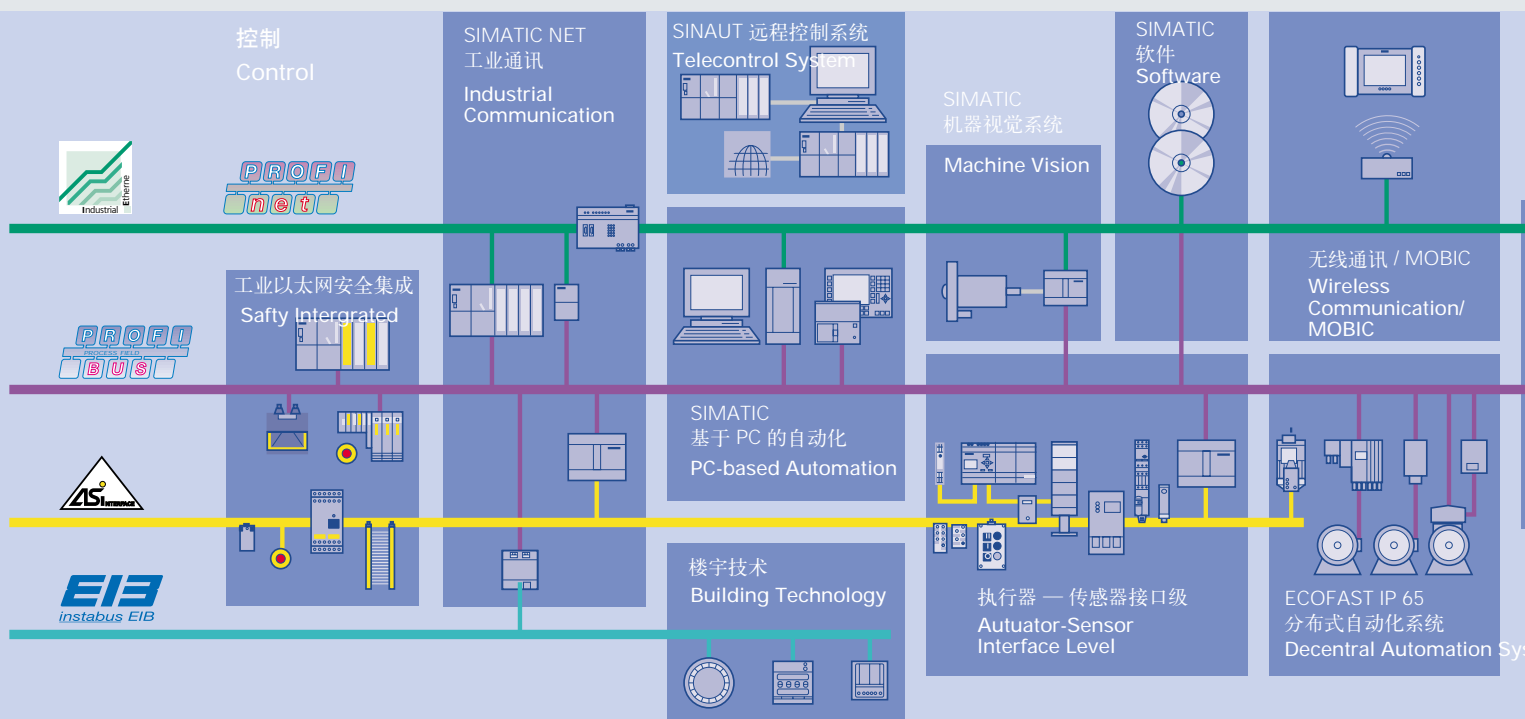

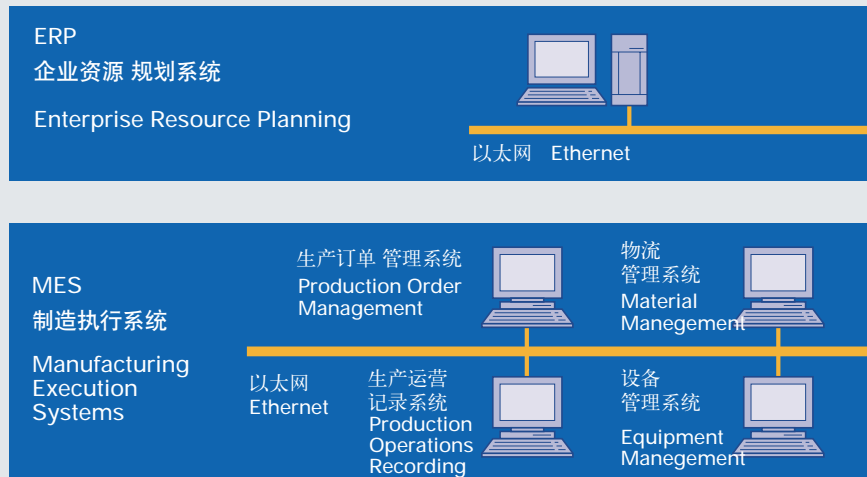

Totally Integrated Automation - innovations for more productivity

借助于全集成自动化实现高效率

采用全集成自动化 (TIA)，西门子自动化与驱动集团可以提供一种全面而卓越的自动化理念，保证工业制造和生产的所有部件和过程的高效、成本优化集成。

这就意味着可以显著提供生产效率，节约成本，不管是工程还是实现，以及工厂运营的寿命周期成本。

籍以这些优点，可以从全面的 TIA 解决方案提供商中广泛受益，提供公司竞争力。

Efficiency thanks to Totally Integrated Automation

With Totally Integrated Automation (TIA), Siemens Automation and Drives offers a comprehensive, well thought-out automation concept that ensures efficient,

cost - optimized integration of all components and subprocesses of industrial manufacturing and production.

This means that you increase your productivity and save costs - for both engineering and implementation, as well as lifecycle

costs for operation of your plant.

Profit from the comprehensive TIA knowledge of the Siemens Automation Solution Providers and raise your company above the competition thanks to these advantages.
